Rocky Mountain BMW Riders Club is proud to present its first newsletter! We will publish the newsletter once a month, and send it out electronically to our members, and those without email can pickup your copy at the monthly meetings.

We will use the newsletter as a place to communicate and inform our membership about upcoming events and activities.

In addition we will present articles of interest to our membership about rides, equipment, safety, techniques, clinics, and just about anything you want to discuss.

The newsletter is only as good as our contributing editors. We want to hear from anyone about a idea, news tidbit or experience you had or are going to have.

## DAYTONA BIKE WEEK 2005

Our own Roy Blakney has developed and planned a ride to Daytona Bike Week in Daytona, Florida.

Roy has been to Bike Week for many years. He knows all the tricks and places to see while there. He can get us pit passes for the races and just about anything we would want to do.

There are about 5 of us already planning on doing the ride. Our approximate departure date is March 3-5 depending on weather.

We are also planning a short side trip to Key West and Cape Canaveral Space Center in addition to enjoying the main street sights and the races in

Daytona Beach.

We are looking for more participants. If you are interested, please, contact Roy at (303) 756-2547 or Ed Padalinski at (303) 699-6282. We would love for you to join us for the adventure.
